Introduction

Tanker Cleaning Services Natal is recognized as KwaZulu-Natal's premier provider in the industry. Independent Wash Bay Company for Cleaning ISO Containers in South Africa.

TANKER CLEANING SERVICES Ntl, is a registered and approved Logistics Services Provider to the Sasol Group and complies with all Health and Safety regulations laid out by the Occupational Health & Safety Act & Regulations Act 85 of 1993.

All employees of TANKER CLEANING SERVICES Ntl hold relevant training certificates issued by accredited training centres, ensuring the delivery of high-quality service. Our training encompasses a variety of essential skills, including:

- F4 Spreader
- 18-Ton Container Handler
- Reach Stackers
- First Aid
- Fire Fighting
- Spill Prevention
- Confined Space Entry
- Incident Investigation

These are just a few examples of the comprehensive training our team undergoes.

PROVIDING SUPERIOR ISO CONTAINER & ROAD TAKER WASHES AND REPAIRS SINCE 1998

All Equipment undergoes annual servicing and inspections to comply with all statutory regulations.

TANKER CLEANING SERVICES Ntl complies with all environmental regulations to provide a cleaner more, efficient waste management system. All waste is segregated into different streams that are treated as well as tested monthly to continue to provide an environmentally friendly wellbeing.

At TANKER CLEANING SERVICES Ntl we pride ourselves in being the best quality controlled service provider in South Africa. All our employees are trained to be the most efficient & reliable in our industry.

We trust that you will join our family and make a successful future together. Assuring you of our professional attention at all times.

20 YEARS
EXPERIENCE

THE KEYS TO SUCCESS

PROFESSIONALISM

We firmly uphold a commitment to professionalism throughout every phase of our work, from planning to execution, ensuring that all tasks are completed in a timely and corporate manner.

TEAMWORK

Together, we can achieve anything as a cohesive unit. With our extensive industry experience, we are fully prepared to meet any expectations.

ENTHUSIASM

We are dedicated to achieving our goals and fulfilling our clients' expectations with a friendly and efficient approach, always aiming for complete customer satisfaction.

MISSION STATEMENT

Our Commitment to Excellence

Our mission is to deliver the finest quality ISO Container washes, repairs, and storage across Africa. By upholding high standards and professionalism, we adhere to comprehensive Health and Safety regulations, ensuring that the services we provide meet the highest benchmarks.

OUR VISION

Our objective is to be recognized as a leading provider of superior quality and innovative services, fully dedicated to adding value for our clients and shaping the future of Tanker Cleaning Services Ntl cc.

OUR VALUE

- We value our clients We
- value the environment We
- value our quality We value
- our quality of service We
- value our employees We
- value our family

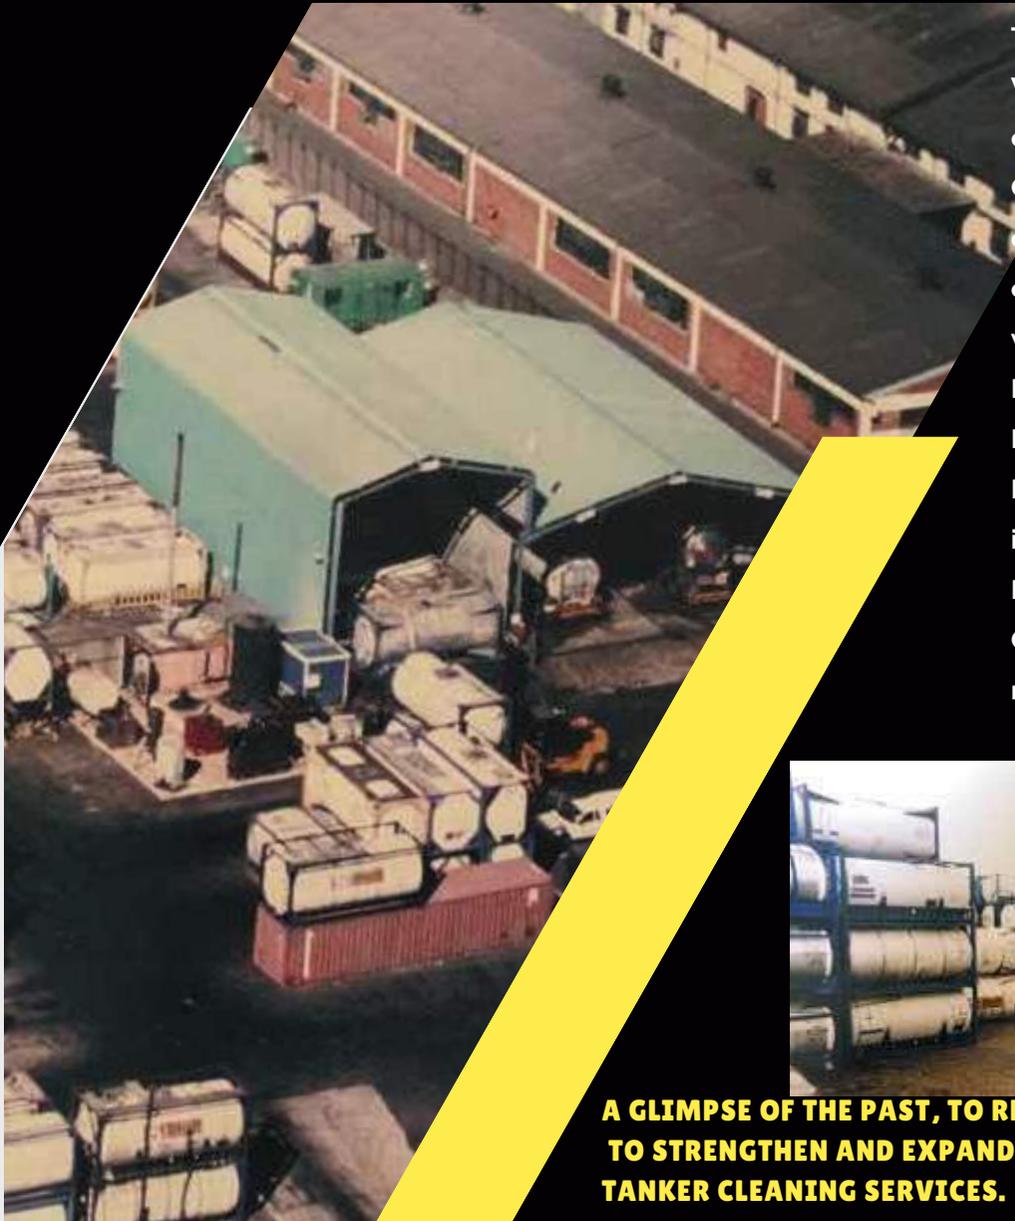

OUR HISTORY

Hendrik Baltasar Grové is the Founder of Tanker Cleaning Services Ntl cc since 1998.

The establishment of the business was driven by the need for a quality-controlled Superior Washbay and ISO Container Terminal in Durban, South Africa. On February 28, 2016, the company's founder retired, passing leadership to his two sons, Nickolaai Grove (ISO Container Director) and Franscious Grove (Washbay Director). Both have been actively engaged in the company's growth and development since 2007, diligently working to ensure that Tanker Cleaning Services Natal remains the premier choice for ISO container washing, repairs, and storage in South Africa.

In 2003, the first ISO tanks began to be stacked at TCS's location at 67 Teakwood Road, Durban, with our initial customers including Stolt, Sturocks, and Ms Shipping.

In October 2016, TCS expanded its operations, venturing into previously unserved areas and increasing its surface area to 13,000 square meters. Under the leadership of Nickolaai and Franscious, the company successfully navigated the economic challenges posed by COVID-19 and natural disasters, continuing to grow. By 2022, TCS had further extended its reach with the establishment of a satellite branch in Isando, Johannesburg.

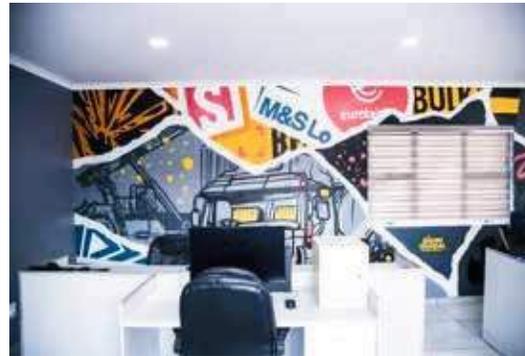

A GLIMPSE OF THE PAST, TO REFLECT ON THE FUTURE. WE HAVE GONE FROM STRENGTH TO STRENGTHEN AND EXPAND TO KEEP UP WITH THE CONSTANT DEMAND OF QUALITY TANKER CLEANING SERVICES.

Over the years we have strived to better our business and have made extensive upgrades to our depots and offices to enable us to continue offering the best possible service in the most efficient ways possible.

OUR SERVICES

Choosing the right service for any project is essential; however, selecting the appropriate option can be challenging.

Choosing the Right Company is Crucial

Tanker cleaning projects can be highly complex, and the associated "learning curve" can incur significant costs if the results fall short of expectations. This impacts both the tank owner and the tanker cleaning contractor.

EXPERIENCE MAKES THE DIFFERENCE

Our on-site supervisors, boasting a combined experience of over 50 years, excel at keeping projects on schedule while preventing time-consuming and expensive errors. Our teams consist of full-time professionals who are trained to perform their tasks safely and efficiently. Every day your tank remains out of service translates to lost revenue for your business.

Our core competencies in road tanker services and ISO container solutions are backed by 27 years of experience, which include:

- Comprehensive historical Services of the Road Tanker Industry and ISO Containers Included:
- Cleaning Road Tankers for over 25 years of expertise in cleaning road tankers.
- ISO Shipping Container Repair: Specialised repair services for ISO containers.
- Pressure & Hydro Testing: Conducting thorough pressure and hydro testing for ISO containers.
- Storage & Handling: Efficient storage and handling solutions for ISO containers.
- Steam Heating
- Providing steam heating for various products, including Lube Oils and Waxes.

“Choosing the right service”
for any project is important,
but selecting the right
company is essential.

STAFF

TCS NATAL values its employees, recognising that our relationships significantly impact their overall experience and well-being & performance

GOALS

TCS NATAL can only realize its objectives through the unwavering commitment of our employees. We understand the significance of fostering a collaborative environment.

SUSTAINABILITY

At TCS NATAL, we believe that sustaining our business successfully requires a commitment to fostering long-term relationships with our employees, clients, the environment, and our families.

EXPERIENCE MAKES A DIFFERENCE

In Summary

- Our on-site supervisors possess extensive experience, ensuring that projects remain on schedule and minimising the risk of costly errors.
- Our crews are full-time professionals, rigorously trained to operate safely and efficiently.

Reducing tank downtime is essential, as it directly affects revenue.

Health & Safety

TCS is dedicated to the health, safety, and well-being of our employees. We firmly believe that all workplace incidents, injuries, and illnesses are preventable. Our goal is to achieve a "zero incident" standard, as we are convinced that the success of our business is attainable through rigorous health and safety awareness.

CERTIFICATION

WE AT TANKER CLEANING SERVICES NATAL cc WILL CONTINUOUSLY STRIVE TO:

- Provide a clean, safe and healthy working environment;
- Empower all our employees with the correct Training and Knowledge to lead a safer environment. Demonstrate visible safety leadership. It will be the duty and responsibility of every employee to take appropriate care of their own SHEQ and those who may be affected by their actions. They must report all potential hazards to the employers. Active involvement in regular training and toolbox talk encourages commitment to SHEQ.
- Provide training for all employees to enable and encourage them to perform their jobs efficiently with special emphasis on their commitment to Safety, Health, Environment and Quality.
- Establish and maintain a risk management system to assess and respond to all risks. Ensure all risks are properly investigated. Regular undertaking of audits & inspections. Implement an occupational hygiene programme to manage, evaluate and control all levels of identified hazards;
- Provide a medical surveillance system to monitor the health of all employees. Use the SHEQ (Safety, Health, Environment and Quality) system as a basis for our own systems, which will include BEHAVIOUR BASED SAFETY.
- Create systems for effective environmental management; and Implement and manage a Quality System based on the strict Sasol Audit Standards, to maintain high customer satisfaction and services levels.

PRINCIPLE **MANAGEMENT** ROLES

There's only one way to make sure the situation is resolved and that the job is cleanly, precisely and efficiently done. Call the pros at Tanker Cleaning Services Ntl and let our highly experienced & qualified team assist you with your next project.

CEO & FOUNDER

The CEO & Owner, Hendrik

Baltasar Grové has 20 years of experience within the Transport Industry. Through his dynamic wisdom he provides critical knowledge and support to his 2 sons and managers.

WASHBAY OPERATIONS DIRECTOR- *Franscious Grové

0736238363 washbay@tcsnatal.co.za

As the Managing Director, Franscious Grové brings extensive hands-on business experience to the role, holding a Bachelor of Commerce degree with a major in Supply Chain Logistics. He is responsible for leading and overseeing all operations within the Washbay, as well as managing client relationships.
